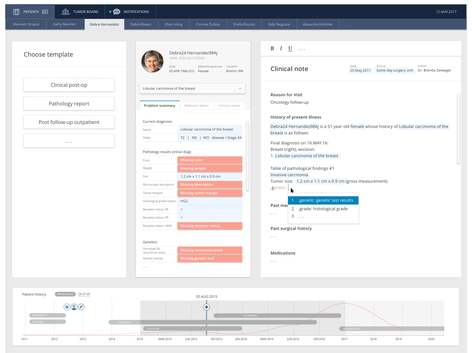
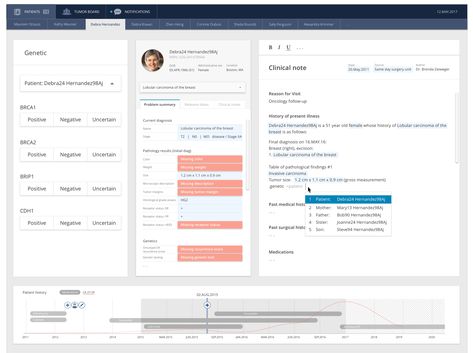
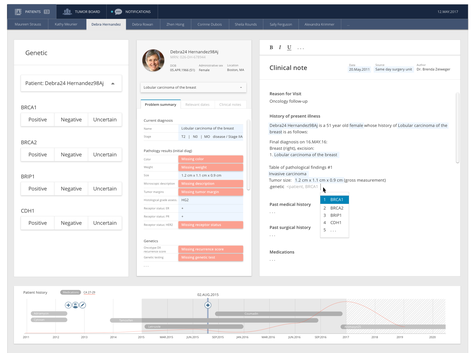
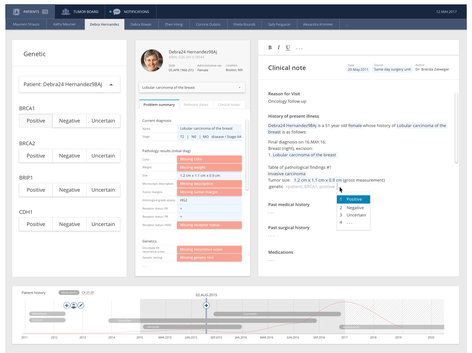
The following tablet/desktop designs are concepts describing oncology data capture and data views within Flux.

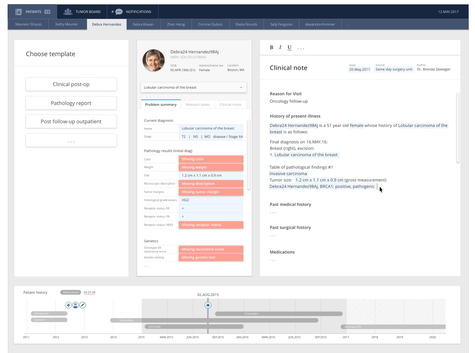
1 DATA CAPTURE: GENETIC INFORMATION + TARGET PERSON



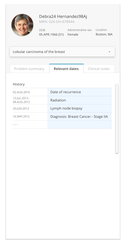


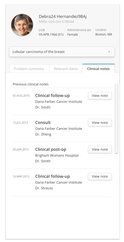




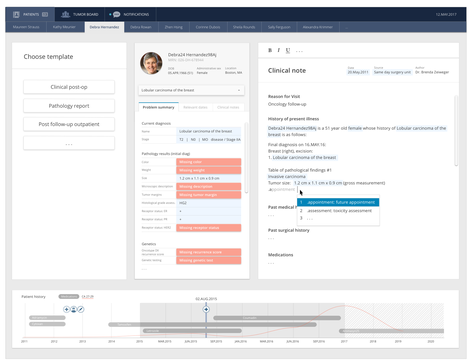


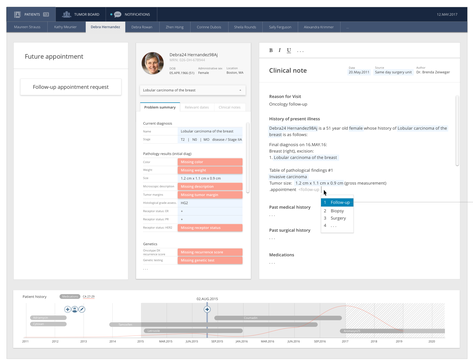
Additional patient summary data elements reveal when patient summary is scrolled.





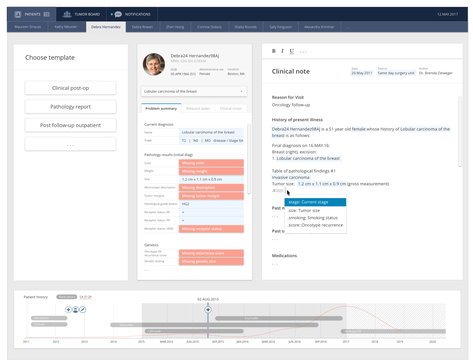
2 DATA CAPTURE: DATES

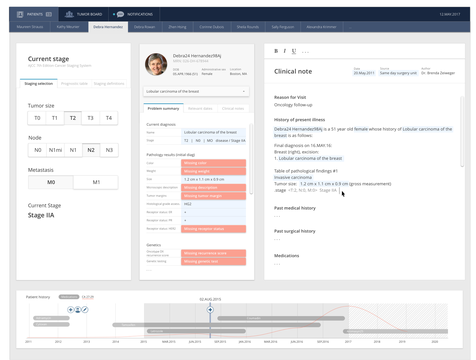




Time/scheduling determined by existing clinical systems

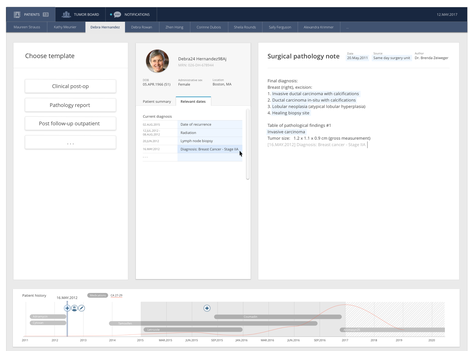
3 DATA RETRIEVAL: CURRENT STAGING

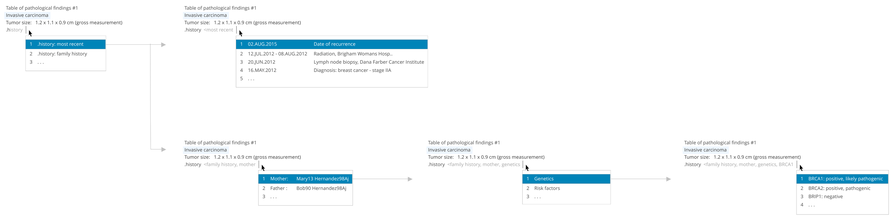




Once structured data is captured in the clinical note, it is updated in the patient summary.

4 DATA RETRIEVAL CONCEPTS





When a structured data element in patient summary is hovered, the possible autocomplete is shown in the clinical note. If it is data related, it highlights the relevant data/event in the patient history below.
